For those with limited time or commitments, our self-study program offers a flexible alternative. Every two weeks, you will receive study materials, and at the end of the period, you'll return to the classroom to collect new materials, ask questions, and clarify concepts. Mock exams are also included, just as in the traditional classes, to reinforce your preparation.

Up Coming Programs

We are currently working to launch three new programs: Adult ELL/IELTS training, Pre-teen Robotics, and Pre-teen Circuitry. If you or someone you know has a need to improve their English or has an engineering-minded child, have them contact our admissions team.

Adult IELTS Training

This comprehensive course is taught by two instructors, each offering their unique approach to English learning. With a primary focus on academic reading, writing, speaking, and listening skills, this course is designed to prepare those interested in pursuing promotions, higher education, or personal goals. Using Band 9 examples, students will be introduced to model performances and taught how to progress toward achieving their own higher bands.

Can-Star Academy Writing Contest

We are thrilled to announce our very first writing competition, launching soon! This is a wonderful opportunity for students to showcase their creativity and writing skills. We encourage all students to participate—stay tuned for more details!
